

Skrinia Type Family

Design date: 2017

Styles: 10 Styles

About Typeface:

Skrinia is a family of slightly condensed humanist sans serif fonts with optimization for modern application usage, start from screen to paper. The charms of this letterform noticed with tall x-height with slight open terminals, this allowed to space-saving publication for short text as well as running text. The contrast of this fonts designed to helps the fonts rendering well in small size and able to enhance the legibility. Skrinia family includes eight weights, from Extralight to Black and each weight has equipped with an italic upright. This font family recommended to use for text on websites, apps with tech platform, and other unique user interface design, and also looks well on printed matter like branding collaterals, business cards, signage etc.

ExtraBold – 18pt / 24pt

For companies where supply chain management is critical to the flow of goods and services—large or small, multi-national or local—getting key supply chain departments spread across different locations around the globe on the same page can be a challenge.

ExtraBold – 24pt / 31pt

For companies where supply chain management is critical to the flow of goods and services—large or small, multi-national or local—getting key supply chain departments spread across different locations around the globe on the same page can be a challenge.

Extralight – 12pt / 16pt

For companies where supply chain management is critical to the flow of goods and services—large or small, multi-national or local—getting key supply chain departments spread across different locations around the globe on the same page can be a challenge. Avoiding duplication of material or part requisitions, the piling up of excess inventory, reacting in a timely fashion to issues that crop up as a customer orders make their way from raw material to delivery (quality, delayed shipments of vital parts etc.) are just a few of the issues. What's more, tracking that progress is especially taxing in a global economy,

Light – 12pt / 16pt
